

Submit claims using the correct 11 digit National Drug Code (NDC). Use this reference to convert NDC numbers.

Converting NDCs from 10-digits to 11-digits

It should be noted that many NDCs are displayed on drug packaging in a 10-digit format. Proper billing of an NDC requires an 11-digit number in a 5-4-2 format. Converting NDCs from a 10-digit to 11-digit format requires a strategically placed zero, dependent upon the 10-digit format. The following table shows common 10-digit NDC formats indicated on packaging and the associated conversion to an 11-digit format, using the proper placement of a zero. The correctly formatted, additional “0” is in a **bold font and underlined** in the following example. Note that hyphens indicated below are used solely to illustrate the various formatting examples for NDCs. **Do not use hyphens when entering the actual data in your claim.**

Converting NDCs from 10-digits to 11-digits					
10-Digit Format on Package	10-Digit Format Example	11-Digit Format	11-Digit Format Example	Actual 10-Digit NDC Example	11-Digit Conversion of Example
